

STEELMASTER NC2 – “ABSOLUTE” PRESS BRAKE

Our ABSOLUTE Pressbrakes are affordable and user friendly

*Pricing does not include safety light or laser guarding

STEELMASTER ABSOLUTE Pressbrakes are manufactured with the budget conscious in mind. They feature high quality components and precision at an affordable price.

Steelmaster offer the best featured Pressbrake for it's price on the market without compromising quality.

Standard two axis ESTUN NC programmable controller for programming the “y” axis position and the “x” position of the power back-gauge.

The solid structure easily absorbs any forces generated during use with ease of operation enabling the operator to maximize efficiency and output.

STEELMASTER'S frame is produced from stress relieved heavy, rolled steel plates and is designed for maximum rigidity and cross system design.

A synchronized torsion bar system ensures consistent ram movement, accuracy and consistency in bending.

FEATURES

- Wide distance between frames up to 3600mm offering you larger folding scope.
- Deep side throats up to 425mm
- Full top and bottom tooling.
- Quality name brand hydraulic & electric components.
- Power backgauge offering efficient sequence flow.
- Digital NC E21 2 axis programmable controller.
- Consistency in manufacturing partners, ensuring quality back up service & spare parts.

3 ph /415 volt machinery do not come fitted with plugs as standard. GST is NOT included in the listed prices
